**Sauer Energy, Inc.**  
**Notes to the Financial Statements**  
**November 30, 2016**  
**(unaudited)**

**Note 1 – ORGANIZATION AND NATURE OF OPERATIONS:**

These unaudited interim financial statements as of and for the three months ended November 30, 2016 reflect all adjustments which, in the opinion of management, are necessary to fairly state the Company's financial position and the results of its operations for the periods presented, in accordance with the accounting principles generally accepted in the United States of America. All adjustments are of a normal recurring nature.

These unaudited interim financial statements should be read in conjunction with the Company's financial statements and notes thereto included in the Company's fiscal year end August 31, 2016, report. The Company assumes that the users of the interim financial information herein have read, or have access to, the audited financial statements for the preceding period, and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. The results of operations for the three-month period ended November 30, 2016, are not necessarily indicative of results for the entire year ending August 31, 2017.

**Organization**

Sauer Energy, Inc. was incorporated in California on August 7, 2008. The Company was incorporated to develop and market wind power electric generators.

**Current Business of the Company**

On July 25, 2010, the Company executed a plan of reorganization with BCO Hydrocarbon Ltd., a Nevada exploration stage enterprise, in which Sauer Energy Inc. became a subsidiary of BCO. BCO changed its name to Sauer Energy, Inc.

The Company leases warehouse/office facilities in Oxnard, California, in which the Company develops wind power technology. A production prototype of a vertical axis wind turbine ("VAWT") has been developed. Its compact size is aimed at the small business and home market. The company is focused on plans to manufacture and distribute the product. In May, 2012, the acquisition of the entire assets of a wind turbine company added two more wind turbine models to the Company, together with patents and a distribution network. During 2015 and 2016, the Company continued to develop its technology.

**NOTE 2**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

These financial statements have been prepared using the basis of accounting generally accepted in the United States of America. Under this basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred. The Company has adopted August 31st as the fiscal year-end.

## **Cash and Cash Equivalents**

The Company considers all liquid investments with a maturity of three months or less from the date of purchase that are readily convertible into cash to be cash equivalents.

## **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Fair Value of Financial Instruments**

The Financial Accounting Standards Board issued ASC (Accounting Standards Codification) 820-10 (SFAS No. 157), "Fair Value Measurements and Disclosures" for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. FASB ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. FASB ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The carrying amounts of the Company's financial instruments as of August 31, 2016, reflect:

- Cash: Level 1 Measurement based on bank reporting.  
Level 2 Loans from Officers and related parties
- Level 2 Based on promissory notes.

## **Federal income taxes**

The Company utilizes FASB ACS 740, "*Income Taxes*", which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. A valuation allowance is recorded when, in the opinion of management, it is "more likely-than-not" that a deferred tax

asset will not be realized. The Company generated a deferred tax credit through net operating loss carry-forward. A valuation allowance of 100% has been established.

Interest and penalties on tax deficiencies recognized in accordance with ASC accounting standards are classified as income taxes in accordance with ASC Topic 740-10-50-19.

### **Research and development costs**

The Company expenses costs of research and development cost as incurred. The costs for the three months ended November 30, 2016, and three months ended November 30, 2015, were \$71,933 and \$45,174 respectively.

### **Advertising and marketing expenses**

Costs for advertising and marketing for the three months ended November 30, 2016, and three months ended November 30, 2015 were \$9,005 and \$33,178 respectively.

### **Stock-based Compensation**

The Company records stock-based compensation in accordance with ASC 718, Compensation – Stock Based Compensation and ASC 505, Equity Based Payments to Non-Employees, which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based awards made to employees and directors, including stock options.

ASC 718 requires companies to estimate the fair value of share-based awards on the date of grant using an option-pricing model. The Company uses the Black-Scholes option-pricing model as its method of determining fair value. This model is affected by the Company's stock price as well as assumptions regarding a number of subjective variables. These subjective variables include, but are not limited to the Company's expected stock price volatility over the term of the awards, and actual and projected employee stock option exercise behaviors. The value of the portion of the award that is ultimately expected to vest is recognized as an expense in the statement of operations over the requisite service period.

All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

### **Basic and Diluted Earnings (Loss) Per Share –**

Net loss per share is calculated in accordance with FASB ASC 260, Earnings Per Share, for the period presented. Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. The Company does not have potentially dilutive securities outstanding consisting of warrants to purchase common stock or convertible loans.

### **Recent Accounting Pronouncements**

Management has considered all recent accounting pronouncements.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and

preliminary nature of those proposed standards, the Company's management has not determined whether implementation of such standards would be material to its financial statements.

The Company is reviewing the effects of following recent updates. The Company has no expectation that any of these items will have a material effect upon the financial statements.

- Update 2016-15—Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force)
- Update 2016-09—Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting
- Update 2016-07 —Investments—Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting
- Update 2016-06 —Derivatives and Hedging (Topic 815): Contingent Put and Call Options in Debt Instruments (a consensus of the Emerging Issues Task Force)
- Update 2016-03—Intangibles—Goodwill and Other (Topic 350), Business Combinations (Topic 805), Consolidation (Topic 810), Derivatives and Hedging (Topic 815): Effective Date and Transition Guidance (a consensus of the Private Company Council)
- Update 2016-01—Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities
- Update 2015-17 —Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes
- Update 2015-16—Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments
- Update 2015-15—Interest—Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements—Amendments to SEC Paragraphs Pursuant to Staff Announcement at June 18, 2015 EITF Meeting (SEC Update)

### **Reclassifications**

Certain amounts in the prior period financial statements have been reclassified to conform to the current period presentation. These reclassifications had no effect on reported losses, total assets, or stockholders' equity as previously reported.

### Note 3 – Going Concern

The Company's financial statements are prepared using the generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company has accumulated a deficit of \$(10,270,112) as of November 30, 2016, and had no revenues, which raises substantial doubt as to the Company's ability to continue as a going concern.

In view of these matters, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheets is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain financing and to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Management plans to raise additional capital through the sale of stock to pursue business development activities.

### Note 4 – Property and Equipment

Property and Equipment consisted of the following at November 30, 2016 and August 31, 2016

	11/30/16	8/31/16
Property Plant and Equipment	\$ 282,427	\$ 282,427
Less accumulated depreciation	(225,225)	(214,304)
Property and equipment, net	\$ 57,201	\$ 68,123

The Company depreciates its property and equipment using accelerated methods over lives of five or seven years. In three months ended November 30, 2016, and 2015, depreciation was \$10,922 and \$17,760, respectively.

### Note 5 – Asset Purchase

On May 11, 2012, the Company entered into an Asset Purchase Agreement with St. George Investments LLC, an Illinois limited liability company, to acquire certain assets in foreclosure for 6,000,000 common shares. The assets were formerly owned by Helix Wind, Inc., a Nevada corporation in the same business as the Company. The assets and agreed prices were:

Tangible Assets	
Equipment	\$ 23,000
Supplies	1,000
Inventory	1,000
Total Intangible Assets	\$ 25,000

Intangible Assets

Goodwill	\$ 5,000
Intellectual Property (10 patents, 2 trademarks, network systems, wind turbine monitoring system, URL)	1,467,500
Restrictive Covenant	2,500
Total Intangible Assets	<u>\$ 1,475,000</u>

### Note 6 – Intangible Property

The Company has acquired intangible property in patents, patents pending and goodwill. The patents are being amortized over their expected lives of not more than seventeen years. The restrictive covenants were fully amortized as of August 31, 2013, Those patent costs allocated to pending patents do not begin amortizing until the underlying patent is issued. If for some reason a patent is not issued the costs - associated with the acquisition and the continuation of the application are fully amortized in the year of the denial.

	November 30, 2016	August 31, 2016
Patents	\$ 109,092	\$ 109,092
Purchased Patents	1,467,500	1,467,500
Goodwill	5,000	5,000
Less Amortization	(401,329)	(378,785)
	<u>\$ 1,180,263</u>	<u>\$ 1,202,807</u>

In three months ended November 30, 2016 and 2015, amortization was \$22,544 and \$18,490, respectively.

### Note 7 - Notes Payable

On July 26, 2016, the Company entered into short term note agreement with Beaufort Capital Partners, LLC., in the amount of \$50,000 with an interest rate of 10% per annum, with a due date of October 26, 2016. It has been paid in full.

On August 30, 2016, the Company entered into a short term note agreement with Beaufort Capital Partners, LLC., in the amount of \$40,000 with an interest rate of 10% per annum, with a due date of December 1, 2016. The balance as of three months ended November 30, 2016, was \$10,717 and subsequently has been paid in full.

The Company entered into note agreements and subsequent modifications and settlements on convertible notes. These notes are convertible into the Company's common stock and are due usually within one

year. The notes were issued with original issuance discounts of twelve percent which was immediately convertible into common stock and if the note was not repaid in ninety days the zero percent interest rate was replaced with an immediate prepaid interest charge at ten percent with was subject to conversion. The Conversion terms were both fixed and variable if the trading prices did not meet the fix conversion price.

#### **Note 8 -- Related Party Note**

As of August 31, 2016, we have related party payables to Dieter Sauer, and Ana Sauer in the amounts of \$5,000 and \$3,000, respectively, for consulting in the month of August, 2016, and as of three months ended November 30, 2016 we had a related party payable to Dieter Sauer. Dieter Sauer, who is the President and CEO, and Ana Sauer, who is the Corporate Secretary, are husband and wife.

#### **Note 9 – Commitments and Contingencies**

##### **Rental Agreement:**

On August 7, 2015, the Company entered into a Commercial Single-Tenant Lease for a 26,550 square foot building in Oxnard, California, with monthly payments of \$13,507 for sixty months, plus common area costs of \$507.38 per month. All company operations will be concentrated at the site.

Lease Commitments – following five fiscal years:

Fiscal year ended

August 31,

---

Year	Lease
2017	168,173
2018	168,173
2019	168,173
2020	168,173

For the 3 months ended November 30, 2016, and 2015, the rent expense was \$42,043 and \$42,043.

#### **Note 10 - Federal income tax**

No provision was made for federal income tax, since the Company has had significant net operating losses. Net operating loss carryforwards may be used to reduce taxable income through the year 2035. The availability of the Company's net operating loss carryforwards are subject to limitation if there is a 50% or more positive change in the ownership of the Company's stock, unless the same or similar business is carried on. The net operating loss carryforward for federal and state income tax purposes was

approximately \$10,270,112, which will expire in 2029 through 2035 if not utilized. The Company uses 35% for a composite tax rate to estimate the value of net operating losses for deferred taxes.

The Company as of three months ended November 30, 2016, and 2015, recognized net operating losses of approximately \$379,864 and \$14,511, respectively. The total estimated deferred tax asset as of three months ended November 30, 2016, was \$3,594,539. The net increases for the three months ended November 30, 2016, and 2015, are approximately \$380,000 and \$14,500. The Company recorded a 100% valuation allowance for the deferred tax asset since it is more likely than not that some part or all of the deferred tax asset will not be realized.

Although Management believes that its estimates are reasonable, no assurance can be given that the final tax outcome of these matters will not be different than that which is reflected in our tax provisions. Ultimately, the actual tax benefits to be realized will be based upon future taxable earnings levels, which are very difficult to predict.

No provision was made for federal income tax, since the Company had an overall net operating loss and has accumulated net operating loss carryforwards.

For the three months ended November 30, 2016, and 2015, no income tax expense has been realized as a result of operations and no income tax penalties and/or interest have been accrued related to uncertain tax positions. The Company files income tax returns in the U.S. federal jurisdiction and in the State of California. These filings are subject to a three-year statute of limitations. The Company's evaluation of income tax positions included the years ended August 31, 2013 through 2016, could be subject to agency examinations. No filings are currently under examination. No adjustments have been made to reduce the estimated income tax benefit at fiscal year-end or at the quarterly reporting dates. Any valuations relating to these income tax provisions will comply with U.S. generally accepted accounting principles.

#### **Note 11 – Capital Stock**

The Company went public on 7/25/ 2010. Its Common Stock is traded on the open market under the symbol OTCQB: SENY.

On July 7, 2014, the Company entered into a private placement agreement that involved issuing 5,000,000 units of securities at \$0.05 per unit for a total amount of cash of \$250,000. Each unit consisted of one (1) share of common stock, par value \$0.0001 per share and one (1) common stock purchase warrants for a total of 5,000,000 warrants with an exercise price of \$0.30 each expiring January 31, 2016.

On September 1, 2015, the Company authorized 651,042 shares of common stock to be issued for \$15,000 at \$0.02304 per share pursuant to an Equity Purchase Agreement.

On September 10, 2015, the Company authorized 1,640,420 shares of common stock at \$0.01524 per share to be issued in exchange for cancellation of \$25,000 of the convertible loan.

On September 11, 2015, the Company authorized 902,778 shares of common stock to be issued for \$19,500 at \$0.021 per share pursuant to an Equity Purchase Agreement.

On September 18, 2015, the Company authorized 1,072,125 shares of common stock to be issued for \$22,000 at \$0.020 per share pursuant to an Equity Purchase Agreement.

On October 6, 2015, the Company authorized 868,056 shares of common stock to be issued for \$15,000 at \$0.017 per share pursuant to an Equity Purchase Agreement.

On October 12, 2015, the Company authorized 1,012,731 shares of common stock to be issued for \$17,500 at \$0.01728 per share pursuant to an Equity Purchase Agreement.

On October 20, 2015, the Company authorized 1,851,852 shares of common stock to be issued for \$28,000 at \$0.015120 per share pursuant to an Equity Purchase Agreement.

On October 23, 2015, the Company authorized 1,984,127 shares of common stock at \$0.01260 per share to be issued in exchange for cancellation of \$25,000 of the convertible loan.

On October 27, 2015, the Company authorized 6,613,757 shares of common stock to be issued for \$100,000 at \$0.015120 per share pursuant to an Equity Purchase Agreement.

On November 6, 2015, the Company authorized 2,063,492 shares of common stock at \$0.01260 per share to be issued in exchange for cancellation of \$26,000 of the convertible loan.

On November 20, 2015, the Company authorized 2,000,000 shares of common stock at \$0.01200 per share to be issued in exchange for cancellation of \$24,000 of the convertible loan.

During the quarter ending November 30, 2015, the Company issued 15,576,508 shares of common stock for \$254,000 pursuant to an Equity Purchase Agreement.

During the quarter ending February 29, 2016, the Company issued 11,077,216 shares of common stock for \$100,000 pursuant to a convertible note.

During the quarter ending February 29, 2016, the Company issued 4,269,242 shares of common stock for \$55,000 pursuant to an Equity Purchase Agreement.

During the quarter ending May 31, 2016, the Company issued 40,950,000 shares of common stock was issued for services rendered.

During the quarter ending May 31, 2016, 75,000 shares were cancelled and returned to treasury.

During the quarter ending May 31, 2016, the Company issued 9,498,761 shares of common stock for \$125,000 pursuant to a convertible note.

During the quarter ending May 31, 2016, the Company issued 31,682,076 shares of common stock for \$275,500 pursuant to an Equity Purchase Agreement.

During the quarter ending August 31, 2016, the Company issued 20,867,229 shares of common stock for \$262,500 pursuant to an Equity Purchase Agreement.

During the quarter ending November 30, 2016, the Company issued 26,075,562 shares of common stock for \$322,500 pursuant to an Equity Purchase Agreement.

The Company has not recognized any equity transactions in warrants for the three months ended November 30, 2016.

#### **Note 12 – Warrants**

During the fiscal year ended August 31, 2014, the Company entered into four private placement agreements for total cash proceeds of \$250,000. The private placements of 5,000,000 units consist of one (1) share of common stock, par value \$0.0001 per share and one (1) common stock purchase warrant with an exercise price of \$0.30 and expiring January 31, 2016.

#### **NOTE 13 - Contingencies, Litigation**

There were no loss contingencies or legal proceedings against the Company with respect to matters arising in the ordinary course of business.

On October 23, 2013, the Company filed a complaint against St George Investments, LLC (“St. George”) in Superior Court, Ventura County California seeking declaratory relief as to contracts relating to the Company’s May, 2012, purchase of the assets of Helix Wind from St. George for treasury stock then valued in excess of \$1.8 Million and a subsequent February, 2013, promissory note for \$275,000 executed under the terms of an amendment to the May, 2012, asset purchase agreement. The Company alleged that the Helix Wind asset purchase price had been substantially paid and, in fact, may have been overpaid in light of St. George’s failure to deliver all of the intellectual property of Helix Wind. St. George interpreted the contracts and promissory note as entitling it to a windfall recovery above and beyond the asset purchase price and promissory note amount. On November 21, 2013, St George exercised its right as a non-California based entity to remove the action from the Ventura state court to the federal court sitting in Los Angeles, the United States District Court for the Central District of California. On November 26, 2013, St. George filed its answer and counterclaim seeking to enforce its interpretation of the contracts and to thereby collect approximately \$440,000 above and beyond what is otherwise due, plus costs and attorney fees. On February 3, 2014, the parties participated in a mediation session at the Federal Court and executed an agreement reflecting a settlement in principal (the “Settlement”) which becomes binding only if the parties are unable to come to terms on more formal settlement agreements. The parties have since executed more formal settlement agreements which are included as an exhibit hereto. The basic terms of the Settlement required the issuance of an additional 5,000,000 shares of our common stock to St George under the Helix APA; required St. George to purchase additional shares of our common stock for \$300,000 (\$0.15 per share) which is a price above the market price at the time of the Settlement; fixed the amount due on the note issued to St George in connection with the Helix APA at \$600,000 and granted the Company certain prepayment rights. The Settlement provides for limitations on the amounts of our common stock that St. George may sell into the market.

Full and final settlement was completed on April 6, 2016.

#### **NOTE 14 – Subsequent Events**

Management has reviewed and evaluated subsequent events and transactions occurring after the balance sheet date, November 30, 2016, through the filing of this Annual Report on Form 10-K on [January 11, 2016](#), and determined that the following additional subsequent events have occurred:

As of December 9, \$10,717, plus \$1,000 interest, was paid from the proceeds of the sale of stock pursuant to the terms of the August 30, 2016, note of \$40,000 and it was paid in full.

On December 6, 2016, the Company authorized 4,054,520 shares of common stock to be issued for \$47,000 at \$0.01159 per share pursuant to an Equity Purchase Agreement.

On December 19, 2016, the Company authorized 1,944,444 shares of common stock to be issued for \$35,000 at \$0.018 per share pursuant to an Equity Purchase Agreement.

On December 27, 2016, the Company authorized 2,525,253 shares of common stock to be issued for \$40,000 at \$0.0158 per share pursuant to an Equity Purchase Agreement.

On January 9, 2016, the Company authorized 2,525,253 shares of common stock to be issued for \$40,000 at \$0.0158 per share pursuant to an Equity Purchase Agreement.

## **Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operation**

### **Overview**

We caution you that reliance on any forward-looking statement involves risks and uncertainties, and that although we believe the assumptions on which our forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions could be incorrect. In light of these and other uncertainties, you should not conclude that we will necessarily achieve any plans and objectives or projected financial results referred to in any of the forward-looking statements. We do not undertake to release the results of any revisions of these forward-looking statements to reflect future events or circumstances. Some of the factors that may cause actual results, developments and business decisions to differ materially from those contemplated by such forward-looking statements.

### **RESULTS OF OPERATION**

#### ***Three months ended November 30, 2016 v. three months ended November 30, 2015***

We have not realized any revenue through three months ended November 30, 2016. Our operating expenses increased to \$252,474 for the three months ending November 30, 2016, from \$211,885 for the three months ended November 30, 2015. Consulting expenses increase to \$52,850 for the three months ended November 30, 2016, from \$45,174 for the three months ended November 30, 2015. These overall increases in expenses and increases in financing costs and changes in derivative liability resulted in our net loss of \$379,864 for the three months ended November 30, 2016, as compared to the net loss of \$14,511 for the three months ended

November 30, 2015. We anticipate continued increased costs associated with increased levels of operation and our marketing processes which will begin in the current fiscal year.

## **LIQUIDITY AND CAPITAL RESOURCES**

Net cash flows used in operating activities for the three months ended November 30, 2016, was \$238,051. Net cash flows used in investing was \$0. Net cash flows provided from financing activities for the three months ended November 30, 2016, and 2015, was \$243,217 and \$254,500, respectively. We had cash resources of \$51,751 at November 30, 2016, and we intend to rely on the sale of stock in private placements to increase liquidity to enable us to execute on our plan to manufacture and market vertical axis wind turbines. As reported on a Current Report on Form 8-K filed on July 1, 2016, we have entered into an Equity Purchase Agreement from which we anticipate raising substantial additional cash resources, but there can be no assurance that this will occur.

As of July 1, 2016, the Registrant entered into two agreements with Beaufort Capital Partners, LLC, a New York limited liability corporation (“BCPLLC”), an Equity Purchase Agreement (the “EPA”) and a Registration Rights Agreement (the “RRA”). The two agreements we filed as exhibits to the Registrant’s Current Report on Form 8-K dated July 1, 2016, and the Registrant’s Registration Statement on Form S-1 Number 333-212536 and the following summary is qualified in its entirety by reference to such exhibits.

The agreements required the Registrant to file a registration statement for the common stock underlying the EPA. Subject to various limitations set forth in the EPA, BCPLLC, after effectiveness of such registration statement, was required to purchase up to \$3,000,000 worth of the Registrant’s common stock at a price equal to 72% of the market price as determined under the EPA (prior ten trading days). The EPA provides for volume limitations on the amount of shares that BCPLLC must purchase at any time and provides that the Registrant will be paid for the common stock upon electronic delivery of the shares to BCPLLC. BCPLLC bore the attorney fees relating to the Registration Statement and is not charging the Registrant any additional fees.

On September 8, 2016, the Securities and Exchange deemed our Registration Statement that was filed on July 15, 2016, effective. As stated above, we have begun exercising our put rights under the EPA.

Funds on hand are not sufficient to fund our operations and we intend to rely on the sale of stock in private placements to increase liquidity and, we anticipate deriving additional revenue from product sales in fiscal 2016, but we cannot at this time quantify the amount. If we are unable to raise cash through the sale of our stock, we may be required to severely restrict our operations.

### **Critical Accounting Policies**

Financial Reporting Release No. 60 of the SEC encourages all companies to include a discussion of critical accounting policies or methods used in the preparation of the financial statements. There are no current revenue-generating activities that give rise to significant assumptions or estimates. Our financial statements filed as part of our November 30, 2016, Quarterly Report on

Form 10-Q includes a summary of the significant accounting policies and methods used in the preparation of our financial statements.

### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

### **Item 3. - Quantitative and Qualitative Disclosures About Market Risk**

The Company is a smaller reporting company and is not required to provide this information.

### **Item 4T. - Controls and Procedures**

#### ***Disclosure Controls and Procedures***

Regulations under the Securities Exchange Act of 1934 (the “Exchange Act”) require public companies to maintain “disclosure controls and procedures,” which are defined as controls and other procedures that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

We conducted an evaluation, with the participation of our Chief Executive Officer who is also our principal financial officer, of the effectiveness of our disclosure controls and procedures as of November 30, 2016. Based on that evaluation, our Chief Executive Officer has concluded that as of November 30, 2016, our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses described below.

In light of the material weaknesses described below, we performed additional analysis and other post-closing procedures to ensure our financial statements were prepared in accordance with generally accepted accounting principles. Accordingly, we believe that the financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented.

A material weakness is a control deficiency (within the meaning of the Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 2) or combination of control deficiencies that result in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Management has identified the following three material weaknesses that have caused management to conclude

that, as of November 30, 2016, our disclosure controls and procedures were not effective at the reasonable assurance level:

1. We do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act which is applicable to us for the year ending August 31, 2016, and the quarter ended November 30, 2016. Management evaluated the impact of our failure to have written documentation of our internal controls and procedures on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.
2. We do not have sufficient segregation of duties within accounting functions, which is a basic internal control. Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.
3. The Board of Directors has not provided an appropriate level of oversight of the Company's financial reporting and procedures for internal control over financial reporting since there are, at present, no independent directors who could provide an appropriate level of oversight, including challenging management's accounting for and reporting of transactions. Accordingly, we have determined that this control deficiency constitutes a material weakness.

To address these material weaknesses, management performed additional analyses and other procedures to ensure that the financial statements included herein fairly present, in all material respects, our financial position, results of operations and cash flows for the periods presented.

#### ***Management's Report on Internal Control Over Financial Reporting***

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Exchange Act as a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and that receipts and expenditures of the

Company are being made only in accordance with authorizations of management and directors of the issuer; and

- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Because of the inherent limitations of internal control, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

As of the end of our most recent fiscal quarter, management assessed the effectiveness of our internal control over financial reporting based on the criteria for effective internal control over financial reporting established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") and SEC guidance on conducting such assessments. Based on that evaluation, they concluded that, as of November 30, 2016, such internal control over financial reporting was not effective. This was due to deficiencies that existed in the design or operation of our internal control over financial reporting that adversely affected our internal controls and that may be considered to be material weaknesses.

The matters involving internal control over financial reporting that our management considered to be material weaknesses under the standards of the Public Company Accounting Oversight Board were: (1) lack of a functioning audit committee due to a lack of a majority of independent members and a lack of a majority of outside directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures; and (2) inadequate segregation of duties consistent with control objectives of having segregation of the initiation of transactions, the recording of transactions and the custody of assets. The aforementioned material weaknesses were identified by our Chief Executive Officer in connection with the review of our financial statements as of November 30, 2016.

Management believes that the material weaknesses set forth in items (1) and (2) above did not have an effect on our financial results. However, management believes that the lack of a functioning audit committee and the lack of a majority of outside directors on our board of directors results in ineffective oversight in the establishment and monitoring of required internal controls and procedures, which could result in a material misstatement in our financial statements in future periods.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was

not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only the management's report in this quarterly report.

### ***Management's Remediation Initiatives***

In an effort to remediate the identified material weaknesses and other deficiencies and enhance our internal controls, we have initiated, or plan to initiate, the following series of measures: We will increase our personnel resources and technical accounting expertise within the accounting function when funds are available to us. First, we will create a position to segregate duties consistent with control objectives of having separate individuals perform (i) the initiation of transactions, (ii) the recording of transactions and (iii) the custody of assets. Second, we will create a senior position to focus on financial reporting and standardizing and documenting our accounting procedures with the goal of increasing the effectiveness of the internal controls in preventing and detecting misstatements of accounting information. Third, we plan to appoint one or more outside directors to our board of directors who shall be appointed to an audit committee resulting in a fully functioning audit committee who will undertake the oversight in the establishment and monitoring of required internal controls and procedures such as reviewing and approving estimates and assumptions made by management when funds are available to us. Although there is substantial uncertainty in any such estimate, we anticipate the costs of implementing these remediation initiatives will be approximately \$100,000 to \$150,000 a year in increased salaries, legal and accounting expenses.

Management believes that the appointment of one or more outside directors, who shall be appointed to a fully functioning audit committee, will remedy the lack of a functioning audit committee and a lack of a majority of outside directors on our Board.

We anticipate that these initiatives will be at least partially, if not fully, implemented by August 31, 2017.

### ***Changes in Internal Control over Financial Reporting***

There have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15 (f) under the Exchange Act) during the quarter ended November 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II – OTHER INFORMATION**

### **Item 1 – Legal Proceedings**

On October 23, 2013, the Company filed a complaint against St George Investments, LLC (“St. George”) in Superior Court, Ventura County California seeking declaratory relief as to contracts relating to the Company’s May, 2012 purchase of the assets of Helix Wind from St. George for treasury stock then valued in excess of \$1.8 Million and a subsequent February 2013 promissory note for \$275,000 executed under the terms of an amendment to the May, 2012 asset purchase agreement. The Company alleged that the Helix Wind asset purchase price had been substantially paid and, in fact, may have been overpaid in light of St. George’s failure to deliver

all of the intellectual property of Helix Wind. St. George interpreted the contracts and promissory note as entitling it to a windfall recovery above and beyond the asset purchase price and promissory note amount. On November 21, 2013, St George exercised its right as a non-California based entity to remove the action from the Ventura state court to the federal court sitting in Los Angeles, the United States District Court for the Central District of California. On November 26, 2013, St. George filed its answer and counterclaim seeking to enforce its interpretation of the contracts and to thereby collect approximately \$440,000 above and beyond what is otherwise due, plus costs and attorney's fees. On February 3, 2014, the parties participated in a mediation session at the Federal Court and executed an agreement reflecting a settlement in principal (the "Settlement") which becomes binding only if the parties are unable to come to terms on more formal settlement agreements. The parties have since executed more formal settlement agreements which are included as an exhibit hereto. The basic terms of the Settlement required the issuance of an additional 5,000,000 shares of our common stock to St George under the Helix APA; required St. George to purchase an additional shares of our common stock for \$300,000 (\$0.15 per share) which is a price above the market price at the time of the Settlement; fixed the amount due on the note issued to St George in connection with the Helix APA at \$600,000 and granted the Company certain prepayment rights. The Settlement provides for limitations on the amounts of our common stock that St. George may sell into the market. The foregoing is a summary only and is qualified by reference to the settlement agreement included as an exhibit to the Company's Form 10-K for the year ended August 31, 2014. As of April, 2016, the note and settlement has been paid in full.

**Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3 – Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**
